ABSTRACT

Significant literature about Native Americans, some written by Native Americans, comprises this bibliography. Materials relevant to Native Americans found at Kansas State University are listed. Over 850 books, articles on microfiche, studies, documents, and publications arranged by subject categories are contained in this bibliography. The subject categories include antiquities, captives, culture, economic conditions, education, geographic location, government relations, history, Indians of North America, medicine, reference tools, religion, and tribes. The culture subject category includes literature pertaining to art, basketmaking, children's literature, costume and adornment, general references to culture, dances, dwellings, folklore, food, implements and weapons, language, literature, music, pictorial works, pottery, and social life and customs. Accompanying each title entry is the call number as assigned by the Library of Congress, and an author index is provided. (NQ)

INTRODUCTION

In recent years there has been a growing interest in Native Americans. Intensive research is being done to learn more about these Americans' music, education, customs, history, religion and art. In the areas of lifestyles, philosophies and historic contributions, Native Americans have played more than a significant role in the building of America.

The Native American population in the United States as reported in the 1970 census was 791,839. Today about half of these Americans live on or near reservations while the other 50 per cent live in urban areas. There are about 200 tribes in the United States. Oklahoma, Arizona, California and New Mexico have the largest number of inhabitants. In 1924 by an Act of Congress, Native Americans were granted citizenship. In 1948, the voting rights of Native Americans were secured by a judicial act.

To understand what has happened in our history with respect to American Indians and to see more clearly what is happening now, we need a more fundamental grasp of facts. It was for this reason this bibliography was compiled.

This bibliography is designed to assist students and faculty members at Kansas State University in locating as well as becoming aware of the materials relevant to Native Americans. It is arranged by subject catergories and each title entry is preceded by the call number as assigned by the Library of Congress.

The bibliography was compiled by Cecilia A. Willis, director of the Minorities Resource Center at Kansas State University with the assistance of M. Eunice Travis.
